

# INDEX OF ABSTRACTS

Volume 20 (1973)

- AANDERAA, Stål and GOLDFARB, Warren D. Finite controllability of the Maslov case, A-447.
- ABHYANKAR, Shroeram and SATHAYE, Avinash. On space curves as complete intersections, A-383.
- ABIAN, Alexander. Convergent subsequences of generalized sequences of sets, A-285; A property of entire transcendental functions, A-328; Conditional completion of rings without nilpotent elements, A-418; On the Weierstrass approximation theorem, A-488; Direct product decomposition of alternative rings, A-632.
- ABU-ZAHRA, Said Salim. Directions of Borel, lines of Julia and the local Phragmén-Lindelöf indicator, A-107.
- ACZEL, Janos D. Determination of all additive quasi-arithmetic mean codeword lengths, A-496.
- ACZEL, Janos D., FORTE, Bruno and NG, C. T. Why the Shannon and Hartley entropies are 'natural', A-496.
- ADAMS, David R. On the exceptional sets for spaces of potentials, A-570.
- ADAMS, Michael E. Implicational classes of pseudo-complemented distributive lattices. Preliminary report, A-560.
- ADAMSON, Alan A. A two-cardinal property of first-order theories. Preliminary report, A-501.
- ADLER, Andrew and WILLIAMS, R. Douglas. Ideals in rings of continuous and analytic functions, A-529.
- AGARWAL, Arun Kumar. On the geometric means of an entire function of two complex variables, A-116.
- AGRAWAL, Jagdish C. See MANICKAM, S.
- . See PISONE, Katheleen.
- . See ROSS, Patricia.
- AHLUWALIA, Daljit S. A uniform asymptotic analysis of dispersive wave motion, A-372.
- AHMAD, Shafaat. On implicational completeness, A-414; Semifunctional homomorphic relations. Preliminary report, A-561; Algebraic domains and Fermat's last theorem. Preliminary report, A-629.
- AIKEN, John G. A perturbation property of  $W^*$  algebras, A-267.
- AIKEN, John G., GLASER, Marlene and GRIFFIN, Ernest. On the uniqueness of a hyperfinite  $\Pi_\infty$  factor. Preliminary report, A-529.
- AIZLEY, Paul. Formulas involving numerical functions. Preliminary report, A-56.
- AKEMANN, Charles A., ELLIOTT, George A., PEDERSEN, Gert K. and TOMIYAMA, Jun. Derivations and multipliers of  $C^*$ -algebras, A-603.
- AL-AMILI, N. M. J. and NAOUM, Adil G. Maximal irreducible spaces, A-597.
- AL-AMIRI, Hassoon S. On the radius of starlikeness of certain analytic functions. Preliminary report, A-105.
- ALBERTSON, Michael O. The case of equality in the number of admissible boundary colorings, A-382; The independence number of a planar graph, A-424.
- ALEX, Leo J. Index two simple groups, A-520.
- ALEX, Leo J. and KELLEB, Gordon E. Integral solutions of  $1 + 2^a 3^b 7^c = 2^d 3^e 7^f + 2^g 3^h 7^i$ , A-602.
- ALEXIADIS, V. and SABHARWAL, Chaman L. On the extension of Lebesgue measure. Preliminary report, A-520.
- AL-HASHIMI, Basil, BRENNEMAN, Franklin S. and HERZ, Gall C. Reduced powers in cotorsion. Preliminary report, A-318.
- ALI, Ziad S.  $(N, p_n)$  summability of Fourier series, A-270; Absolute Nörlund summability of Fourier series. Preliminary report, A-326.
- ALIPRANTIS, C. D. Some order and topological properties of locally solid linear topological Riesz spaces. Preliminary report, A-141.
- ALLAN, Nelo D. Hecke algebras of nonprincipal congruence subgroups. Preliminary report, A-70.
- ALLARD, William K. Some unsolved regularity problems in the calculus of variations, A-164.
- ALLDAY, Christopher J. Torus actions on compact Poincaré duality spaces, A-187.
- ALLEN, Graham D. Spectral multiplicity, A-377.
- ALLEN, Harry Prince. Characters on coalgebras. Preliminary report, A-362.
- ALLINGER, Glenn D. and HENRY, Myron S. Approximation solutions of functional differential equations. II. Preliminary report, A-577.
- ALO, Richard A. See de KORVIN, Andre.
- ALO, Richard A. and de KORVIN, Andre. Topologies for Banach spaces, A-180.
- ALO, Richard A., CHENEY, Charles A. and de KORVIN, Andre. A Lebesgue decomposition property, A-493.
- ALO, Richard A., de KORVIN, Andre and KUNES, Laurence E. Operators with range in  $L(X, Y)$ , A-272.
- ALO, Richard A., ROBERTS, Charles and de KORVIN, Andre. Relations between averaging operators for  $\Phi$  and its restriction in a Banach function space setting. Preliminary report, A-436.
- ALPERIN, Roger C. Whitehead torsion for finite abelian groups, A-96.
- ALPHARD, David. On nearly normal operators, A-16.
- ALTHOEN, Steven C. A Seifert-van Kampen theorem for the second homotopy group. Preliminary report, A-609.
- ALTSHULER, Zvi, CASAZZA, P. G. and LIN, Bor-Luh. On symmetric basic sequences in Lorentz sequence spaces, A-142.
- AMELIN, Charles F. The bioperative numerical range. Preliminary report, A-158.
- AMUNDSON, Neal R. Two problems in chemical reactor theory of mathematical interest, A-612.
- ANANTHARAMAN, R. On a vector-valued measure as a map. Preliminary report, A-331.
- ANDERSON, Bruce A. A combinatorial problem arising in topology, A-322; A method of finding perfect 1-factorizations. Preliminary report, A-424.
- ANDERSON, C. K. McKNIGHT, C. K. and HYAMS, W. H. Center points of sequences. Preliminary report, A-151.
- ANDERSON, David H. Multipliers on Banach modules, A-146.
- ANDERSON, R. D. A survey of recent results in infinite-dimensional topology, A-184.
- ANDERSON, Theodore W. Asymptotic expansions of distributions of estimates of angles in a functional relation. Preliminary report, A-537.
- ANDERSON, William N., Jr. and TRAPP, George E. Monotone matrix operations, A-71.
- ANDREWS, George E. On the Alder polynomials and a new generalization of the Rogers-Ramanujan identities, A-57; Application of basic hypergeometric functions, A-392.
- ANDRUSHKIW, Roman. On a theorem of Kryloff and Bogolubov, A-374.
- ANGER, Frank D. Prelattices and vector prelattices. Preliminary report, A-356.
- ANTON, Howard and PERVIN, William J. Metrization over Tychonoff semifields, A-181.
- APPEL, Kenneth I. Computing configurations, A-385.
- APPLING, William D. L. A  $C$ -set characterization theorem, A-9; Further remarks on a finitely additive analogue of Fubini's theorem, A-101; Continuity and upper and lower integrals, A-264; Concerning duals of linear  $C$ -sets, A-324; Homogeneity and continuity properties of upper and lower integral difference functionals, A-425; Refinement continuity, A-482; A convergence theorem, A-570.
- ARKIN, Joseph. The generalized Fibonacci number and its relation to Wilson's theorem, A-361; A solution to the

- classical problem of finding systems of three mutually orthogonal numbers in a cube formed by three superimposed  $10 \times 10 \times 10$  Latin cubes, A-513.
- ARMENDARIZ, Efrim P. and FISHER, Joe W. Regular P.I.-rings, A-73.
- ARNOLD, Jimmy T. The dimension sequence of a commutative ring, A-7.
- ARNOLD, Jimmy T. and GILMER, Robert. Dimension theory of commutative rings without identity. Preliminary report, A-647.
- ARNOLD, Jimmy T., GILMER, Robert and HEINZER, William J. Some countability conditions in a commutative ring. Preliminary report, A-651.

- Retired Mathematicians, 313
- NEW AMS PUBLICATIONS, 53, 59, 64, 75, 85, 122,  
130, 182, 223, 314, 353
- NEWS ITEMS AND ANNOUNCEMENTS, 54, 56, 65, 68,  
81, 120, 137, 143, 148, 170, 172, 176, 186, 215,  
222, 226, 243, 306, 316, 352, 354, 357, 363
- PERSONAL ITEMS, 66, 86, 146, 184, 226, 315, 364
- QUERIES, 55, 76, 143, 173, 229, 307, 358
- RESERVATION FORMS, A-312, A-412, A-470, A-627,  
A-691
- SALARY SURVEY, 271
- SEMINARS AND INSTITUTES
- 1973 Summer Institute on Differential Geometry, 53,  
74
- Conference on the Influence of Computing on  
Mathematical Research, 74, 110, 153
- Preceptorial Introduction to Computer Science for  
Mathematicians, 110, 153, 247, 330
- Symposium on Some Mathematical Questions in  
Biology, 73, 110, 152
- SITUATIONS WANTED, A-216, A-296, A-403, A-463,  
A-549, A-622, A-683
- SPECIAL MEETINGS INFORMATION CENTER, 57, 77,  
141, 177, 227, 308, 355
- SPECIAL SESSIONS, CHAIRMEN AND TOPICS, 256,  
339
- SUMMER GRADUATE COURSES, 82, 144
- TAX STATUS OF GRANTS, 449
- VISITING MATHEMATICIANS, 256, 302, 361
